

Mapping of Behavior Resolution Types to State Codes

July 9, 2013

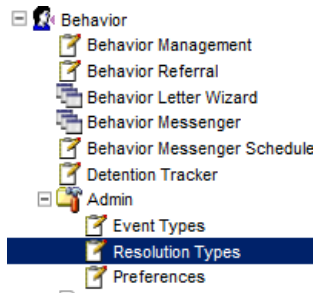

Two new state codes of **SSP7: Restraint** and **SSP8: Seclusion** will be added to IC with the E.1326 release. The codes must be utilized for 13-14 data entry and reporting. Districts must create local behavior resolution codes for Restraint and Seclusion, mapping them to the state codes added. **This must be done before the start of school.**
